

Lord Jesus Christ, we pray for and lift to you at this time of national emergency all who live and work in Feltham, remembering particularly:

those suffering from the Coronavirus and all who are sick in body, mind or spirit; we pray for healing.

our doctors, nurses, paramedics, all health and care workers and the hospitals that serve our area. Giving thanks for their dedication, we pray for their protection, health, strength, safety and the resources they need.

the police, fire brigade and armed forces; we pray Lord Jesus for their health, strength and resilience in this very busy and challenging time.

all who are still at work: in shops and farms supplying us with food, keeping public transport and the airport running and all who work in local services. We give you thanks Lord Jesus for their work enabling us to keep fed. We pray for their health, stamina and patience.

our neighbours as we are physically isolated from each other; particularly the vulnerable, those living alone, those who are self-isolating and the 'shielded';

We thank you Lord Jesus for all in Feltham and the surrounding area, who are acting as 'good neighbours' helping and looking out for others in our community;

We lift to you our families who we may be unable to visit, and those whom we live with.

We pray Lord Jesus, please give us patience and resilience in our relationships and laughter to help us see the funny side and ease the weeks ahead.

Lord Jesus, we trust in your transforming love and we entrust all who we love and our town of Feltham into your care.

Amen
